

Worry Free Flying - A Guide to Single Pilot Resource Mgmt - WINGS Credit

We will explore Single Pilot Resource Management and how we can use the process to keep our flights "Worry-Free". The presentation will include a virtual journey in a Cessna 172. Our flight will begin at a non-towered field and end at a relatively busy airport. As the trip progresses we will pause at each "Decision Point" to consider alternatives. Finally, we will talk about how to properly debrief any flight. This discussion is pertinent for all pilots, VFR or IFR.

Directions: AirVenture - Forum Stage #2 0830am to 0945am

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
